

ECKLA-BEACH-ROLLY

Transport cart for nature photographers

Why is the ECKLA BEACH-ROLLY also essential for photographers?

The solid aluminum construction, high quality materials and good workmanship, Made in Germany, helps photographers transporting their extensive and heavy weight equipment.

Aluminum boxes, tripods, and a lot of photo bags are no problem for the Beach Rolly.

Since the Beach Rolly folds compactly, little space is required for storage in the trunk, and it is very light weight.

It also offers a seat in breaks, allowing longer observations.

The new accessories of the ECKLA-BEACH-ROLLY for photographers complete the universal BEACH-ROLLY perfectly!

for example

adjustable sun roof	Item No. 77729
